May 1, 2013

Galen Weston, Executive Chairman
Loblaw Companies Limited
1 President’s Choice Circle
Brampton, Canada  L6Y 5S5

Dear Mr. Weston:

We the undersigned Canadian organizations are writing to express our profound sorrow and anger at the tragic and unnecessary deaths and serious injuries suffered by hundreds of garment workers as a result of the collapse of the Rana Plaza building in Savar, Dhaka, Bangladesh where Joe Fresh clothing was being manufactured for your company.

We are pleased that your company has made a public commitment to provide compensation to the families of the victims of the Rana Plaza building collapse. We urge you to put that commitment into practice by negotiating with Bangladeshi trade union federations and IndustriALL (the Global Union for the manufacturing sector), in consultation with other companies whose products were made in one or more of the factories in the building, regarding the level, form and channels of compensation for both the families of those who died and the workers who suffered injuries and the loss of employment as a result of the building collapse.

We also call on your company to take immediate steps to ensure that such preventable tragedies do not occur in the future. As a first step, we would urge you to commit to signing on to a joint fire and building safety program with IndustriALL and other international brands and retailers that includes, at minimum, independent and transparent inspections, an informed and active role for workers and trade unions, health and safety training for workers and management personnel, effective health and safety committees, and the right of workers to file complaints and to refuse unsafe work. An effective program must be backed by time-bound remediation plans, effective dispute resolution procedures, and real repercussions for suppliers that refuse to improve conditions.
We also urge your company to publicly disclose all factory audit reports for your Bangladeshi supplier factories, including the findings and corrective action taken, so that consumers and civil society organizations can assess the quality of your audits and whether progress in being made to achieve safe workplaces and decent working conditions.

We will be watching with interest how your company, as well as other companies sourcing apparel products from Bangladesh, live up to your responsibilities to the victims of this tragedy and to the workers who continue to make your products.

Sincerely,

BC Government and Service Employees’ Union (BCGEU)
